

Weighing and EID

You can't manage what
you don't measure.

Om te meet is om te weet

Why Weigh? Hoekom Weeg ons?

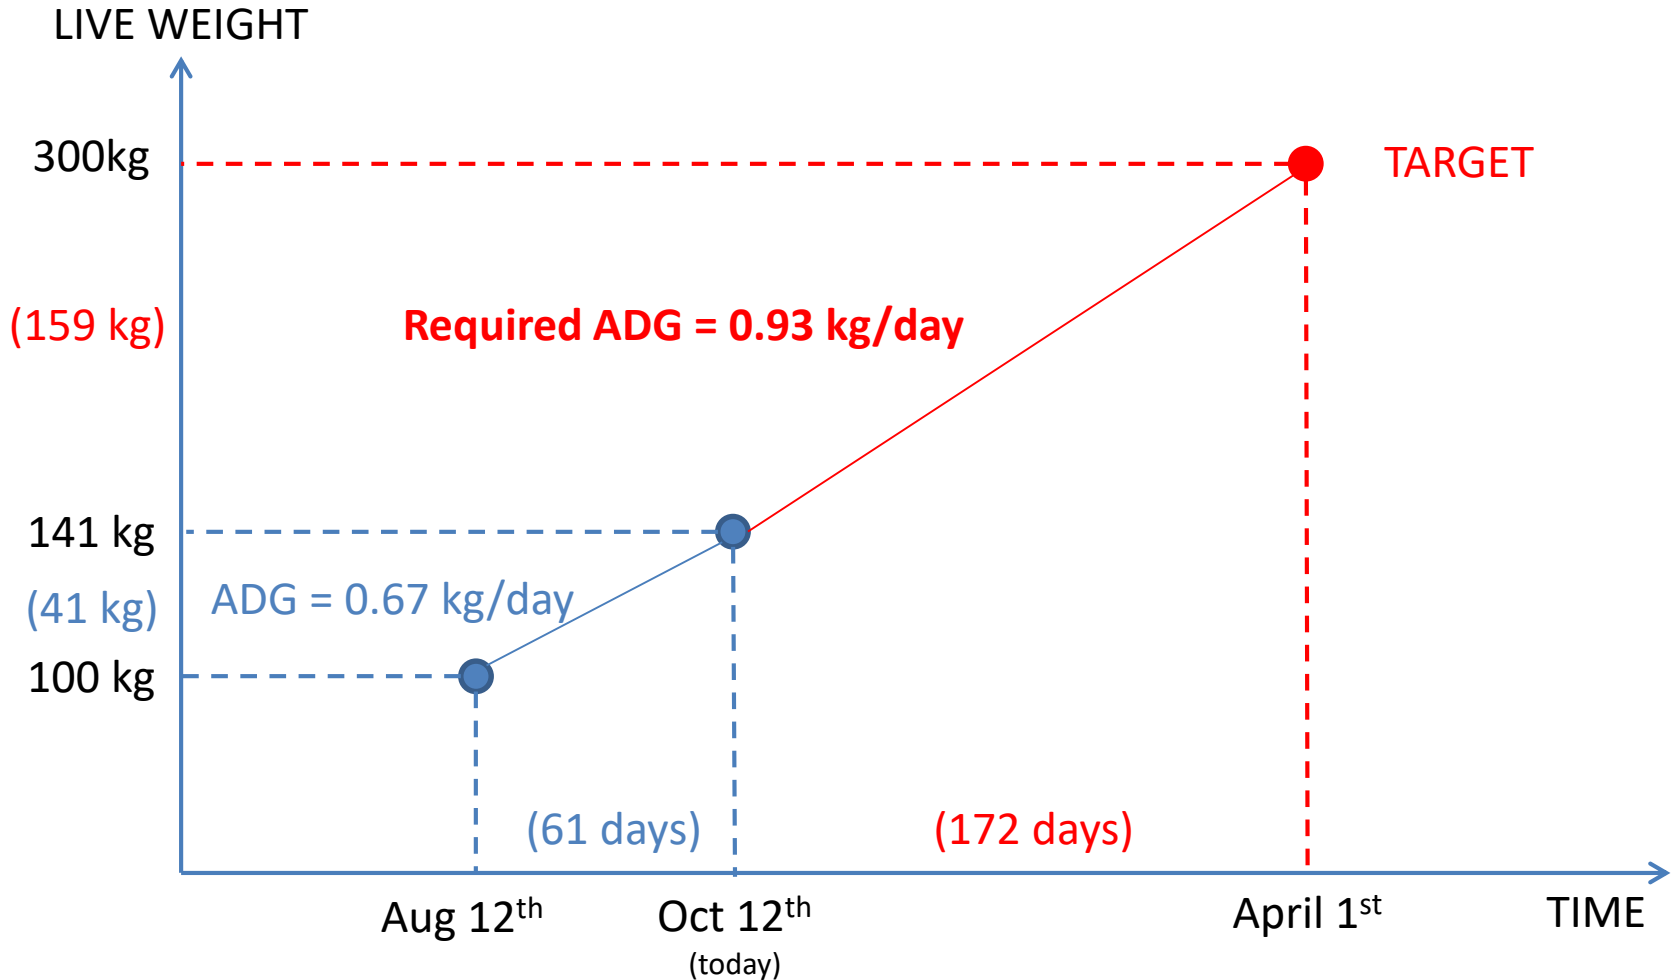

Monitor Performance:

- Feed efficiency/conversion Voer doeltreffendheid/Omskakeling
- Birth weights, weaning weights, ideal mating weights Geboorte gewig, speen gewigte, ideale parings gewigte
- Condition Score monitoring | Kondisie Telling monitering

Maximise Value:

- Select animals for slaughter | Selekteer diere vir slag
- Calculate accurate dosage for medicines | Bereken 'n akurate dosis vir medikasie

Weight Gain **Gewigstoename**

Ons toerusting is sterk vir enige plaas omstandighede | Strong Equipment

CABLE PROTECTION

TOUGH CLAMSHELL DESIGN

W210 Basiese intreevlak Model

- Auto & Manual animal weighing
- Fine weighing for produce/feed
- Rechargeable battery
- Loadbars interchangeable

W310 Voorsien Statistieke

Additional features

- 2 way drafting
- Stats displayed
 - » Number weighed
 - » Maximum weight
 - » Minimum weight
 - » Total weight
 - » Drafting stats
- Weight output to HR5 reader
- New Feature built in bluetooth

Nuwe EID Weegskaal reeks TW-1

New EID capable Weighscale range

3 Models

TW-1
(notes, weights, ADG,
drafting & history)

TW-3
(add traits, treatments &
full keyboard)

TWR-5
(record treatments,
draft, life data and
traits)

Tsi 2

Skaal Gewigaanwyser, Databasis + Rekenaar Program in een Additional features

- Large colour touch screen
- Tough farm ready product
- Weighscale and computer combined
- Store up to 1,000,000 records
- APS Professional running in background
- Full animal management database
- Built in Bluetooth

Weigh scales: Loadbars

2 ton loadbars | Algemene Gebruik

- 2000 kg weighing capacity
- Fully waterproof
- Tough hot dip galvanised steel chassis
- Bottom feet extended for ease of bolting down
- Slotted top holes
- 6 meter long tough polyurethane cables
- Stainless steel cable protector spring
- No rubber mounts to delaminate

Weigh scales: Loadbars

Heavy duty loadbars | Swaar Gewig

- 3,500 kg weighing capacity
- Fully waterproof
- Tough hot dip galvanised steel chassis
- Bottom feet extended for ease of bolting down
- 6 meter long tough polyurethane cables
- Stainless steel cable protector spring
- No rubber mounts to delaminate

Why EID? Hoekom EID?

- **NO errors | Geen Foute**
- **Individual animal monitoring:**
 - » Track individual weight gain
 - » ADG = Average Daily Gain (kg/day)
 - » Early indicator of ill health
 - » Identify best/worst performers
- **Animal history:**
 - » Treatments/medicines
 - » Pedigree (Sire, Dam etc)
 - » Offspring

Hand held readers | Hand Lesers

HR4:

- Large display with visual tag
- Sorting & simple trait recording

HR5:

- Advanced data recording
- Mothering – matching offspring to Dam

LLA

Hands free readers **Paneellesers**

R-series:

- Reads tags and send data to scale (Bluetooth)
- 2 x antenna sizes:
 - 600mm for sheep and cattle handlers
 - 1300mm for cattle walk by

BR-series:

- Internal battery
- Memory to store tag information

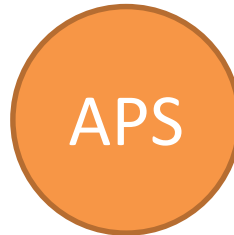

SAD-Sheep Auto Drafter
